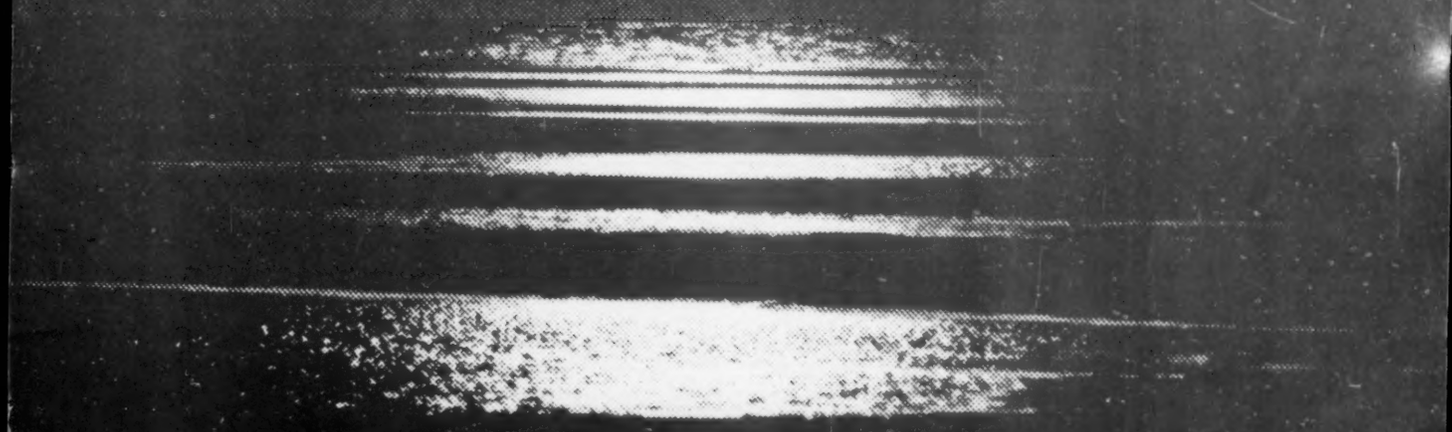
MARINE POLLUTION BULLETIN

AUTHOR & SUBJECT INDEX
VOLUME 8, 1977



Pergamon Press Oxford • New York • Frankfurt

MARINE POLLUTION BULLETIN

The Marine Pollution Bulletin sets out to cover all aspects of the fight for life of the lakes, estuaries, seas and oceans. It includes news, comment, reviews and research reports not only on the threat of noxious substances to marine life but also on the management and productivity to the marine environment in general. It publishes accounts of new and proposed research programmes as well as the results of those in progress.

Published monthly

Microfilm Subscriptions and Back Issues
Back issues of all previous published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means: electronic, electrostatic, magnetic tape, mechanical, photocopying, recording or otherwise, without permission in writing from the publishers.

1 **Submission of papers:** Manuscripts to be in the English language with an (a) Main title (10 words desired max. length). (b) Author's name and author's affiliation including present address as a footnote. (c) Bold Summary - must be on first page containing less than 150 words.
Due to economic pressure it is regretted that foreign language papers cannot be accepted.

2 **Forms of contributions:** Contributions should include (a) 2 copies to be submitted on good quality white paper or high quality xerographic copies thereof; the manuscript to be typed with double spacing throughout with adequate margins (4 cm). (B) *Good quality* original figures. All Greek letters and unusual symbols to be clearly identified by name in the margin. *Acknowledgements* (when appropriate), and *References* (see item 6 below).
Maximum length: Papers - 2500 words in double-spaced typed pages.

3 **Style of contribution:** All tables and figures to be numbered with Arabic numerals. In the text the word "figure" to be typed as "Fig." except at the beginning of a new paragraph. Avoid hyphenation at the end of a line. *Spelling of test to be in English.* Weights and measurements should be expressed in metric units according to the *Système Internationale.* All non-standard abbreviations or symbols to be defined when first mentioned.

4 **Tables:** Tables for publication in the Journal should be submitted along with the figures and descriptive captions and footnotes should accompany those for the figures *typed on a separate sheet. A very clear top copy* of the tables should be submitted and large or long tables should be typed on continuing sheets. Each table to be identified on the upper right hand corner. Computer print-out tabular material will be directly reproduced from the original.

5 **Figures:** All photographs, schemes and diagrams are to be referred to as figures and should be numbered consecutively and *not* included in the typescript. On the back of the figure the author should write his name, the figure or plate number and an indication of the orientation of the figure. Figures should be of a quality suitable for direct reproduction and not to be larger than 8½ × 11 in. (22 × 28 cm). Half-tone illustrations to show magnification factor. Descriptive captions to be typed on a *separate* sheet. Colour illustrations will only be accepted if the authors agree to bear the cost of publication. A detailed quote for colour reproduction to be provided prior to publication by the publisher, and the authors informed accordingly.

6 **References:** References should be listed at the end of the manuscript in order on a separate sheet and should indicate the inclusive pages and article title. *All* authors' names are to be given. References should comply with the abbreviated title of the journal in *World List,* with bold volume numbers to be indicated by a wavy line. References in the text to be in parentheses. Examples:

Journal: Swedmark, M., Granmo, A. & Kollberg, S. (1973). Effects of oil dispersants and oil emulsions on marine animals. *Water Res.,* **7,** 1649-1672.

Book: Trefry, J. H., Sims, R. R. Jr, & Presley, B. J. (1975). In *Shell Dredging and its Influence on The Gulf Coast Environment,* A. A. Bouma (ed.). Houston, Texas: Gulf.

7 **Proofs:** Unless otherwise specified, galley proofs will be sent to the first-named author for correction. Excessive alterations should be avoided. *Proofs should be returned within 24 hours of receipt.*

8 **Reprints:** Reprints can be purchased at a reasonable cost, when proofs are returned, on a reprint order form which accompanies galley proofs. It would be appreciated if authors notify the publisher promptly of any change of address occurring whilst their article is in the process of publication.

9 **Content:** Responsibility for the contents of the paper rests upon the authors, and not upon the editors, or the publisher. Therefore, it is important that the contents of the manuscript be carefully considered by the author. The author must agree not to publish the same manuscript in another journal without obtaining the consent of the editor of this journal.

SUBJECT INDEX

Abra spp. (mollusc) 210
Abra alba (mollusc) 103, 211
Abra nitida (mollusc) 103, 211
Acanthocardia tuberculata 211
Acartia clausi (copepod) 79–81, 90
Acartia torisa (copepod) 90, 258–259
Acmaea scabra (rough limpet) 90
Actinia equina (sea anemone) 212
Adrian Maersk 267
Aedicira belgicae 43
Aeolidia papillosa 211
Agorius cataphractus (pogge) 10, 211
Alca torda (razorbill) 123
Alcyonidium gelatinosum 212
Alcyonium digitatum 211–212
Algae 13–14, 16–18, 84–86, 113–115, 220
Alopius sp. (longtail shark) 201
Aluminium 66, 91, 225–226
Amblyomma loculosum (tick) 156
Ammodytes sp. 211
Ammonium molybdate 204–205
Amphicteis gunneri 43
Amphipods 92–94, 113
Amphithoe valida (amphipod) 92–94, 258–259
Amphitrite sp. 211
Amphiura filiformis 211
Andaman Sea 200–203
Anguilla anguilla (eel) 33
Anguilla rostrata (eel) 207
Anous stolidus (common noddy) 154–156
Anous tenuirostris (lesser noddy) 154–156
Antarctic 73, 76
Antimony 79–81, 91, 183–188, 229–231
Aphrodite aculeata 211
Arbacia lixula (urchin) 163
Arboviruses 154–157
Arctic 35–39
Artica (= Cyprina) islandica 103
Ardea herodias (great blue heron) 208
Arenicola marina (lugworm) 212
Arenicola loveni 43
Argo Merchant 30, 53, 124, 171, 182
Aricidea sp. 43
Arrow 177
Arsenic 79–81, 200
Artemia salina (brine shrimp) 114
Ascophyllum sp. 114
Asellus militaris 94
Asterias rubens (starfish) 10, 204, 211–213
Asterias sp. (seastar) 114
Asteropteron nodulosum 43
Astropecten irregularis 211
Australia 13–15, 100, 244

Bacteria 13, 45–47, 57–61, 150–153, 227, 269–272, 272–275, 276–279, 279–281, 282–283, 283–285, 285–287
Balanus amphitrite (barnacle) 232–235
Balanus balanoides (barnacle) 212
Balanus crenatus (barnacle) 211
Balanus variegatus (barnacle) 232–236
Berge Istra 77
Bittium reticulatum (mollusc) 103
Billie II 261
Birds 29, 73–74, 75–76, 154–157, 171–172, 173, 194–195, 205–209
Blindingia minima (alga) 17–18
Botryllus schlosseri 212
Bougainvillia ramosa 212
Brachydanio rerio (Zebra fish) 137
Bromine 162, 230
Buccinum undatum 10, 211
Bucephala clangula (duck) 123
Buglossidium luteum 211
Bulamia ftallamzami (shark) 201
Bullia annulata (gastropod) 43
Bunodactis verrucosa 210

Cadmium 31–34, 40–41, 46, 79–81, 91, 102–104, 111–112, 164–166, 183–188, 188–192, 198–200, 224–226, 260–264
Caesium 229–231
Calanus heligolandicus (copepod) 142
Calcium 163–164
California 109–112, 221–224
Callianassa kraussi (prawn) 45
Callionymus lyra (dragonet) 10, 211
Calliostoma zizyphinum 212
Campolara 133
Camporraso 133
Canada 78, 101, 125, 174, 175–183, 205–209, 242
Cancer irroratus 114, 198
Cancer pagurus 213
Capitella (polychaete) 94
Carcinus maenas (crab) 10, 31, 32, 204
Cardium edule (mollusc) 103
Caribbean 100, 149
Cavtat 78, 124
Cellopora sp. 212
Cepphus grylle (black guillemot) 123
Ceramium rubrum 212
Chaetomorpha linum (filamentous alga) 14
Channel Islands 84–86
Charadrius squatarola (grey plover) 154
Chelonia mydas (green turtle) 99
Chenopus pespelicani (mollusc) 104
Chloramine 161–163
Chlorine 161–163
Chloris chloris (greenfinch) 194
Choromytilus meridionalis (bivalve) 43, 44
Chromium 79–81, 91, 111–112, 183–188, 188–192, 198–200, 225–226, 229–231, 260–264
Chysaora hysoscella 211
Ciona intestinalis (tunicate) 229–231
Cirolana 283
Cirriformia tentaculata 43
Cladophora sp. 13–14
Classic 174
Clay 91
Clostridium botulinum 28
Clupae harengus (herring) 114, 237
Clyde Estuary 272–275
Cobalt 79–81, 91, 183–188, 229–231, 249–253, 260–263
Coliforms 150–153, 227, 269–272, 272–275, 283–285, 285–287
Containers 105–108
Conventions 126–132, 175–183
Copepods 64, 79–81, 90–91, 138–143, 258–259
Copper 16–18, 31–34, 65–70, 79–81, 84–86, 102–104, 111–112, 163–164, 183–188, 188–192, 198–200, 224–226, 250–252, 260–264
Corbula (= Aloidis) gibba (bivalve) 103
